

● **Kruti** by Ola Krutrim • Jun 2025 – Apr 2026

What Kruti’s users valued, and what they asked for

431 Play Store reviews, turned into an eval set and a plan for Ola’s next AI launch.

431 English reviews
12 Jun 2025 – Mar 2026

IN SHORT

1 in 6 happy reviews came from pride in an Indian-built AI. Agent tasks and Indian languages were the features users singled out.

43 of 346 reviews rated 4–5★ still asked for faster answers. The 4.3★ average hid how often it came up.

6 evals built from real, dated reviews, each with a pass rule, to run before every release of Ola’s next AI product.

“feeling proud that this app is made in India and by our engineers ... just need to focus on speed of generating response”
5★ review • 12 Aug 2025

Users wanted an Indian AI to win, and singled out agent tasks and Indian languages

WHAT USERS PRAISED • MENTIONS IN THE 346 REVIEWS RATED 4-5★

A review can mention more than one. Highlighted: what set Kruti apart in users’ own words.

RATING MIX • 431 REVIEWS • AVERAGE 4.3★

WORTH KEEPING

Agent tasks and Indian languages are what users singled out. Both belong in whatever Ola builds next.

“I liked that it can book rides, pay bills, and even generate images in one place.”

4★ • 30 Aug 2025

“one of the best AIs I've used for learning in my local language. No big mistakes in language translation”

4★ • 17 Jan 2026

Happy users kept asking for the same fixes, and the 4.3★ average hid how often

REVIEWS ASKING FOR EACH, BY MONTH · JUN 2025 – MAR 2026

Small monthly counts: read the pattern, not single months

THE TOP ASKS, AND WHO WAS ASKING

Faster answers

60 reviews

43 in 4-5★ · 17 in 1-3★

“kindly add fast mode so that we can get answers very fastly”

5★ · 24 Jan 2026

Dark mode

41 reviews

32 in 4-5★ · 9 in 1-3★

“Please please add "Dark mode". Please. Otherwise users can leave the app.”

4★ · 26 Oct 2025

Errors, freezes, no reply

27 reviews

11 in 4-5★ · 16 in 1-3★

“After a few queries, the app stops showing answers and shows offline”

2★ · 27 Jan 2026

Keyboard hides the text box

5 reviews

3 in 4-5★ · 2 in 1-3★

“it remains hidden behind the keyboard”

5★ · 23 Dec 2025 · 5th report since Jun

Next time: make speed the first feature, and test every release against what users reported

THE PLAN

- NOW

Stream the first words and add a fast mode (60 reviews asked for speed). Fix the keyboard bug. Ship dark mode (41 reviews).
- NEXT

Put the eval set in the release process. One sign-in for agent tasks, so a booking never loops.
- LATER

Editing a sent prompt, memory across chats and clear data controls, each asked for in a few reviews.

ONE WEEKLY NUMBER

Share of answers with first words within 2 seconds, and share of agent tasks completed with at most one login.

Guardrail: answer-quality scores on the eval set don't drop as responses get faster.

AN EVAL SET BUILT FROM REAL REVIEWS

~30 prompts per area · runs on every model, prompt or app change · any drop blocks the release

ID	AREA	FROM A REAL REVIEW	PASSES IF	SCORED BY
EVAL-01	Speed	“8–9 second response time for simple queries” · 27 Aug 2025	First words within 2 s; short answers done within 5 s	Timer in the test run
EVAL-02	Numbers and facts	Auto-sales figures all “in 5000 to 7000 bracket” · 2 Feb 2026	Matches a named source within 5%, or says it isn't sure	Check against the source
EVAL-03	Follow-up questions	“why” after “what” without restating “shows error” · 12 Oct 2025	Resolves the earlier turn with no error	LLM judge, spot-checked by a person
EVAL-04	Reading images	Home-loan screenshot “stuck at understanding step” · 9 Dec 2025	Reads the right column and gets the total right	Exact match on the total
EVAL-05	Agent tasks	Cab booking stuck in a login loop · 14 Oct 2025	Reaches confirmation with at most one login	Scripted run on a test account
EVAL-06	Indian languages	“learning in my local language ... No big mistakes” · 17 Jan 2026	Answers in the language asked, fluent and correct	Native-speaker panel, 1–5
