“paid for a package of 2 services....but Slots not available....so how to book”

★☆☆☆☆ Snabbit user · 2026-09-07

“slots are never available. You pay for 3 service and end up getting only 1 service”

Why this matters

Packs bring cash in early and build loyalty. When a pack can't be used, the customers who trusted Snabbit most are the ones left disappointed.

Snabbit already leads on the hardest part: helpers arriving. Protecting pack buyers would make that strength visible.

Pack protection

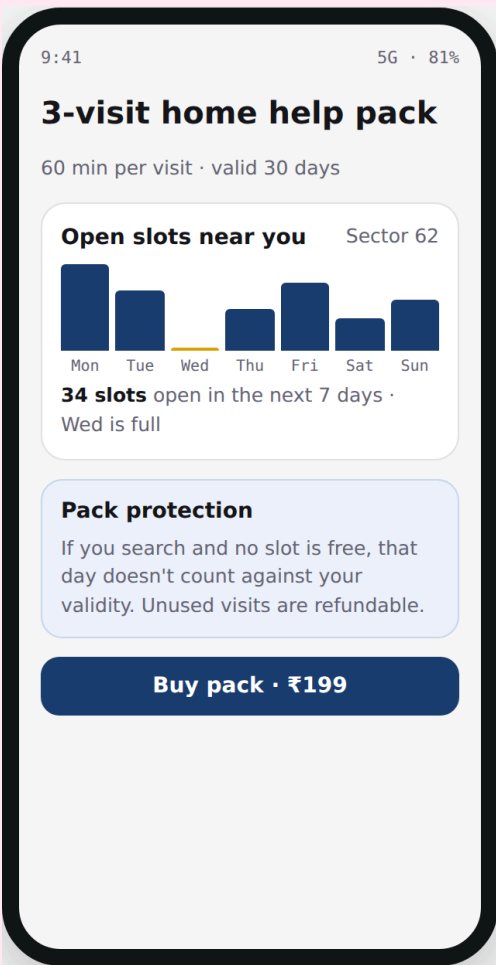

- 1

Show supply before selling: the pack screen shows open slots near the customer's address for the next 7 days. Where supply is thin, offer single visits instead.
- 2

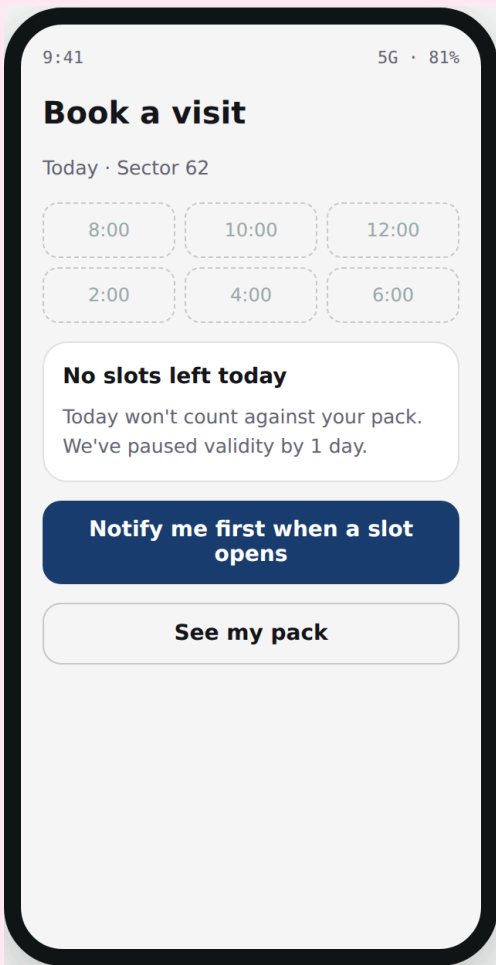

Pause validity on days with no slot: if the customer searched and nothing was free, that day doesn't count. The pack screen says which days were paused.
- 3

Pack holders hear first: an early alert when a cancellation frees a slot.
- 4

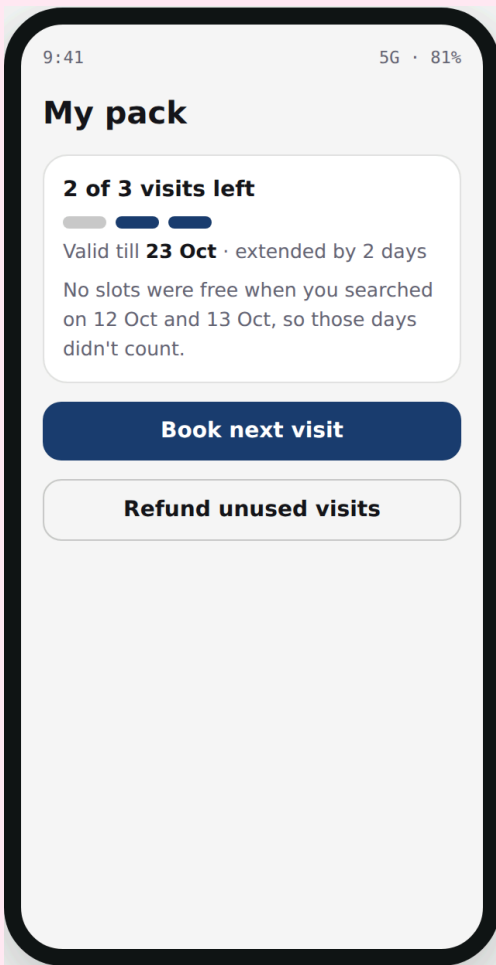

One-tap refund of unused visits to the original payment method, with the amount and timing shown before confirming.
